

World Is Better

By Ari Koinuma

Sometimes the going gets tough
Sometimes you fear it's too rough
Sometimes you think you're unfit
But the world is better with you in it

Sometimes you feel so unsure
Sometimes there's no real cure
Sometimes you're stuck in a pit
But the world is better with you in it

The world is better
The world is better
The world is better with you in it (x2)

I know the pain is overwhelming
And it feels like forever
But you're not alone in suffering
And your light still shines and lights our path brighter

So know that you are enough
Know that you are loved
Know that there's a place where you fit
'Cause the world is better with you in it

The world is better
The world is better
The world is better with you in it (x4)
